

The Colorado News

On Thursday Night Mimi, Poppo and I went on a flight to Colorado. So we got there and we got there early.

On our way there, there was a Big Horn Moose or something like that.

~~and~~ So, when we got there we were staying in a hotel. ~~and~~ We got there we unpacked and checked in our room.

In addition, the next day we registered so we can get our skis and our boots.

Then, we went skiing from 11:30 - 12:00 and stop for ~~about~~ 30 mins, so we could eat lunch at 12:00. So after lunch

we went back out, ~~and~~ Mimi brought her camera and Poppo's videocamera.

We were having a lot of fun. Then the next day, we went to get the pictures done at 10:00 am. When we were taking pictures, I kept slipping and my pants got wet. After that, the next day or two.

Mimi and I, had ski lessons with Robin. Our ski instructor.

And guess what I went to go in the trees, Into Rivercross forest, haunted forest and crazy trap trails. Also, there are these things called snow globes.

There Mobiles but they can go
in snow. What they do is they
rescue people. Wednesday - this baby
boy got hurt in ski school and had
to go in the emergency kit and go
down with the snow mobile. Mimi, Poppop
and I felt so bad. You know he was
only 3-4 years of age. ~~In conclusion~~
finally, it was Thursday time
to go home. And the good part about it
was that nobody got hurt. Also,
we had to pack to go to the airport.
Eventhough Colorado was so fun.
I am glad to be home to see
my mom and ferrits.

I hope I can go
back next year!
